Any concentration shown as a range is to protect confidentiality or is due to batch variation.

There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment and hence require reporting in this section.

Occupational exposure limits, if available, are listed in Section 8.

## Section 4. First aid measures

| Description of necessary first aid meas   | sures  |
|---|--|
|   | If material comes in contact with the eyes, immediately wash the eyes with large amounts of water for 15   |
| Inhalation                                | minutes, occasionally lifting the lower and upper lids. Get medical attention.<br>If person breathes in large amounts of material, move the exposed person to fresh air at once. If breathing has  |
|   | stopped, perform artificial respiration. Keep the person warm and at rest. Get medical attention as soon as possible.  |
| Skin contact                              | If the material comes in contact with the skin, wash the contaminated skin with soap and water promptly. If the material penetrates through clothing, remove the clothing and wash the skin with soap and water promptly. If irritation persists after washing, get medical attention immediately. |
| Ingestion                                 | If material has been swallowed, do not induce vomiting. Get medical attention immediately.   |
| Most important symptoms/effects, acu      | e and delayed  |
| Potential acute health effects            |  |
| Eye contact                               | No known significant effects or critical hazards.  |
| Inhalation                                | No known significant effects or critical hazards.  |
| Skin contact                              | No known significant effects or critical hazards.  |
| Ingestion                                 | No known significant effects or critical hazards.  |
| Over-exposure signs/symptoms              |  |
| Eye contact                               | Adverse symptoms may include the following: pain or irritation, watering, redness.   |
| Inhalation                                | Adverse symptoms may include the following: respiratory tract irritation, coughing.  |
| Skin contact :                            | Adverse symptoms may include the following: irritation, redness.   |
| Ingestion :                               | No known significant effects or critical hazards.  |
| Indication of immediate medical atter     | tion and special treatment needed, if necessary  |
|   | Treat symptomatically. Contact poison treatment specialist immediately if large quantities have been ingested or inhaled.  |
| Specific treatments                       | No specific treatment.   |
| Protection of first-aiders                | No action shall be taken involving any personal risk or without suitable training.   |
| See toxicological information (Sectio     | n 11)  |
|   | Section 5. Fire-fighting measures  |
| Extinguishing media                       |  |
| Suitable extinguishing media              | : Use water spray to cool fire exposed surfaces and to protect personnel. Foam, dry chemical or water spray (fog) to extinguish fire.  |
| Unsuitable extinguishing media            | : None known.  |
| Specific hazards arising from the chem    | ical : Toxic fumes gases or vapors may evolve on burning.  |
| Hazardous thermal decomposition pro       | ducts : No specific data.  |
| Special protective actions for fire-fight | cause splattering. Material floats on water.   |
| Special protective equipment for fire-fig | nters : Not applicable.  |
|   | Section 6. Accidental release measures   |
| Personal precautions, protective equip    | ment and emergency procedures  |
| For non-emergency personnel               | Keep unnecessary and unprotected personnel from entering. Avoid breathing vapor or mist. Provide adequate<br>ventilation. Wear appropriate respirator when ventilation is inadequate. Put on appropriate personal protective<br>equipment.   |
| Methods and materials for containme       |  |
| Spill                                     | : Contain with dikes or absorbent to prevent migration to sewers/streams. Take up small spill with dry chemica   |
| Spin                                      | absorbent; large spills may require pump or vacuum prior to absorbent. May require excavation of severely contaminated soil.   |
|   | Section 7. Handling and storage  |
| Precautions for safe handling             |  |
|   | Put on appropriate personal protective equipment (see Section 8). Do not get in eyes or on skin or clothing.   |
|   | Do not breathe vapor or mist. Do not ingest. Use only with adequate ventilation. Wear appropriate respirator when ventilation is inadequate  |

Advice on general occupational<br/>hygienewhen ventilation is inadequate.Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and<br/>processed. Workers should wash hands and face before eating, drinking and smoking.

#### Auto Gold Syn. Blend 5W20, 5W30, 10W30

Conditions for safe storage, including any incompatibilities

: Do not store above the following temperature: 113°C (235.4°F). Odorous and toxic fumes may form from the decomposition of this product if stored at excessive temperatures for extended periods of time. Store in accordance with local regulations. Store in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10). Use appropriate containment to avoid environmental contamination.

### Section 8. Exposure controls/personal protection

#### **Control parameters**

#### **Occupational exposure limits**
