

Big check represents big warranty coverage

(From left) Brian and Bill Dixson received a check for \$2,895 from Don Broekemeier of Aurora Cooperative Elevator Co. and Marv Razor of CHS for Cenex warranty coverage on a John Deere tractor.

We recently delivered a check to Bill and Brian Dixson of St. Paul, Neb., for a claim submitted under the Cenex® Total Protection Plan™ warranty program. The check covered repairs to the Dixsons' used John Deere tractor, and the claims process went off without a hitch — despite some skepticism on the part of their equipment dealer.

“The shop foreman thought there was no way the warranty would pay for this kind of repair, but the Cenex warranty covered it with no hassle whatsoever,” says Bill Dixson.

“We’ve been using Cenex oils and fuels for years because they’re good products, and we get good service from Aurora Cooperative Elevator Co. We no longer have gelling problems in the winter like we did before we switched to Cenex premium diesel.”

The Total Protection Plan provides coverage for up to 8 years or 8,000 hours on used equipment and 10 years or 10,000 hours on new equipment. The Dixons currently have both used and new tractors protected on the program.

“We’ve got a lot of customers’ equipment covered on the Total Protection Plan because it’s such a great program — it’s a low fee plan with zero deductible and it goes beyond even the extended warranties from the equipment manufacturers,” says John Kohtz, energy sales.

Kohtz recommends that all producers consider the program because “it’s great risk management for your high-dollar equipment. And it gives you peace of mind. If something is going on in your tractor, like high copper levels, it will usually show up early in the oil testing.”

As the check we recently delivered proves, the Total Protection Plan provides big coverage with little hassle. Give us a call today and we’ll help you determine the right energy products and warranty protection for all your equipment.
