

Big Check Represents Big Warranty Coverage

Burt Lingenfelter (right) received a \$7,382 check from Bryan Daum, energy manager at Battle Creek Farmers Cooperative, for Cenex warranty coverage on a New Holland tractor.

We recently helped deliver a big check to one of our customers — and we do mean big. The 3-foot-long check was delivered to Burt Lingenfelter of Bloomfield, Neb., by Bryan Daum, energy manager of Battle Creek Farmers Cooperative, Battle Creek, Neb. The oversized check represents the amount of money paid for a claim submitted under the Cenex® Total Protection Plan™ warranty program.

Lingenfelter received a payment of more than \$7,300 for repairs made to a New Holland tractor. “When white smoke came out of my tractor, the first person I called was my Cenex representative to find out if I still had coverage” because the tractor was so close to 10 years old, says Lingenfelter. “When I found out the warranty would cover my engine overhaul, my reaction was pure relief.”

The Total Protection Plan extends beyond equipment manufacturers’ warranties to provide valuable coverage and peace of mind to producers who use premium Cenex lubricants and fuels; it provides coverage for up to 10 years or 10,000 hours on

new equipment (8 years or 8,000 hours on used equipment). Unlike other warranties, the plan has no deductible and no burden of proof, meaning it does not require you to prove your engine problems were caused by an oil or fuel defect.

“The mechanic never mentioned anything about the problem being related to the oil or fuel, and the claim went through without a hitch because it’s truly a ‘no questions asked’ policy,” says Daum.

“I’m happy with the coverage and happy with the products,” says Lingenfelter. “Cenex lubricants are good products represented by good people, and Ruby Fieldmaster® premium diesel fuel is second to none for my tractors and irrigation motors.”

The Total Protection Plan is a great way to protect your investment in your agricultural equipment. And, as the check we recently delivered proves, it can be a great way to get “big” coverage with “little” hassle. Give us a call today and we’ll help you determine the right energy products and warranty protection for all your equipment.
