

SAFETY DATA SHEET

Section 1. Identification

| CHS Inc. P.O. Box 64089 Mail station 525 St. Paul, MN 55164 | -0089 | Transportation Emergency (CHEMTREC) Technical Information SDS Information | : | 1-800-424-9300 1-651-355-8443 1-651-355-8445 |
|--|-----------------------------------|---|---|--|
| Product name | : BIO-PENETRATING LUBRICANT (BPL) | SDS no. | : | 0187-048573 |
| Common name | : Bio-Penetrant. | Revision date | : | 06/23/2015 |
| Chemical name | : Lubricating oil. | Chemical formula | : | Mixture |
| Chemical family | : Hydrocarbon. | | | |

Relevant identified uses of the substance or mixture and uses advised against

Lubricating oil.

| OSHA/HCS status | : | This material i | s considered I | hazardou | s by the OSHA Hazard | Comm | nunication Standard (29 CFR 1910.1200). |
|--|-------|---------------------------------|----------------|--------------|-------------------------------|----------|--|
| Classification of the substance or mixture | : | GASES UNDE | | | pressed gas | | |
| GHS label elements | | | | | | | |
| Hazard pictograms | : | \diamond | | > | | | |
| Signal word | : | Danger | • | | | | |
| Hazard statements | : | Contains gas May be fatal if | | | xplode if heated. airways. | | |
| Precautionary statements | | | | | | | |
| General | : | Not applicable | <u>ا.</u> | | | | |
| Prevention | : | Not applicable | ·. | | | | |
| Response | : | IF SWALLOW | 'ED: Immedia | itely call a | POISON CENTER or | physic | ian. Do NOT induce vomiting. |
| Storage | : | Store locked u | p. Protect fro | m sunligh | nt. Store in a well-venti | lated p | blace. |
| Disposal | : | Dispose of co | ntents and cor | ntainer in | accordance with all loc | al, regi | ional, national and international regulations. |
| Hazards not otherwise classified (HNOC) | : | None known. | | | | | |
| Hazardous Material Information Sy | /ste | m (U.S.A.) | Health : | 1 | Flammability : | 1 | Physical hazards: 0 |
| National Fire Protection Association | am /I | | Health : | 4 | Flammability : | | Instability: 0 |

Section 2. Hazards identification

| Section 3. | Composition/information on ingredients |
|------------|--|
|------------|--|

| Substance/mixture | : Mixture | | |
|---|--------------------|--------------------|-----------------------|
| Chemical name | : Lubricating oil. | | |
| Other means of identification | : Bio-Penetrant. | | |
| Ingredient name | | % | CAS number |
| White mineral oil (petroleum) Carbon dioxide | | 60 - 100 5 - 10 | 8042-47-5 124-38-9 |

Any concentration shown as a range is to protect confidentiality or is due to batch variation.

There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment and hence require reporting in this section.

Occupational exposure limits, if available, are listed in Section 8.

Section 4. First aid measures

| Description of necessary first aid | <u>l measures</u> |
|------------------------------------|---|
| Eye contact | : If material comes in contact with the eyes, immediately wash the eyes with large amounts of water for 15 |
| | minutes, occasionally lifting the lower and upper lids. Get medical attention. |
| Inhalation | : If person breathes in large amounts of material, move the exposed person to fresh air at once. If breathing has stopped, perform artificial respiration. Keep the person warm and at rest. Get medical attention as soon as |
| | possible. |
| Skin contact | : If the material comes in contact with the skin, wash the contaminated skin with soap and water promptly. If the |
| | material penetrates through clothing, remove the clothing and wash the skin with soap and water promptly. If |
| Ingestion | irritation persists after washing, get medical attention immediately.If material has been swallowed, do not induce vomiting. Get medical attention immediately. |
| Most important symptoms/effect | |
| Potential acute health effects | <u>s, acute and delayed</u> |
| Eye contact | : No known significant effects or critical hazards. |
| Inhalation | : No known significant effects or critical hazards. |
| Skin contact | : No known significant effects or critical hazards. |
| Ingestion | : May be fatal if swallowed and enters airways. |
| Over-exposure signs/symptom | |
| Eye contact | Adverse symptoms may include the following: pain or irritation, watering, redness. |
| Inhalation | : Adverse symptoms may include the following: pair of initiation, watering, reditess: |
| Skin contact | : Adverse symptoms may include the following: respiratory tract initiation, coughing. |
| Ingestion | No known significant effects or critical hazards. |
| Indication of immediate medica | I attention and special treatment needed, if necessary |
| Notes to physician | : Treat symptomatically. Contact poison treatment specialist immediately if large quantities have been ingested |
| | or inhaled. |
| Specific treatments | : No specific treatment. |
| Protection of first-aiders | : No action shall be taken involving any personal risk or without suitable training. It may be dangerous to the person providing aid to give mouth-to-mouth resuscitation. |
| See toxicological information (| Section 11) |
| | Section 5. Fire-fighting measures |
| | Section 5. Fire-fighting measures |

| <u>Extinguishing media</u> | |
|--|---|
| Suitable extinguishing media | Use water spray to cool fire exposed surfaces and to protect personnel. Foam, dry chemical or water spray (fog) to extinguish fire. |
| Unsuitable extinguishing media | : None known. |
| Specific hazards arising from the chemical | : Toxic fumes gases or vapors may evolve on burning. |
| Hazardous thermal decomposition products | : Decomposition products may include the following materials: carbon dioxide carbon monoxide |
| Special protective actions for fire-fighters | : When fighting fires wear full turnout gear and self contained breathing apparatus. Water may cause splattering. Material floats on water. |
| Special protective equipment for fire-fighters | : Not applicable. |
| | |

Section 6. Accidental release measures

Personal precautions, protective equipment and emergency procedures

For non-emergency personnel : Keep unnecessary and unprotected personnel from entering. Avoid breathing vapor or mist. Provide adequate ventilation. Wear appropriate respirator when ventilation is inadequate. Put on appropriate personal protective equipment.

Methods and materials for containment and cleaning up

Spill

: Contain with dikes or absorbent to prevent migration to sewers/streams. Take up small spill with dry chemical absorbent; large spills may require pump or vacuum prior to absorbent. May require excavation of severely contaminated soil.

Section 7. Handling and storage

| Precautions for safe handling | |
|---|--|
| Protective measures | Put on appropriate personal protective equipment (see Section 8). Do not get in eyes or on skin or clothing. Do not breathe vapor or mist. Do not ingest. Use only with adequate ventilation. Wear appropriate respirator when ventilation is inadequate. |
| Advice on general occupational hygiene | : Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. |
| Conditions for safe storage, including any incompatibilities | : Do not store above the following temperature: 80°C (175°F). Odorous and toxic fumes may form from the decomposition of this product if stored at excessive temperatures for extended periods of time. Store in accordance with local regulations. Do not store at temperatures exceeding 113°F (45°C). Store in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10). Use appropriate containment to avoid environmental contamination. |

Section 8. Exposure controls/personal protection

Control parameters

ł

Occupational exposure limits

| Ingredient name | | | Exposure limits | |
|----------------------------------|---|--|---|--|
| White mineral oil (petroleum) | | | ACGIH TLV (United States, 4/2014). TWA: 5 mg/m ³ 8 hours. Form: Inhalable fraction NIOSH REL (United States, 10/2013). TWA: 5 mg/m ³ 10 hours. Form: Mist STEL: 10 mg/m ³ 15 minutes. Form: Mist OSHA PEL (United States, 2/2013). TWA: 5 mg/m ³ 8 hours. | |
| Appropriate engineering controls | : | : Use only with adequate ventilation. | | |
| Environmental exposure controls | : | Emissions from ventilation or work requirements of environmental pro | process equipment should be checked to ensure they comply with the tection legislation. | |
| ndividual protection measures | | | | |
| Hygiene measures | : | | oroughly after handling chemical products, before eating, smoking and using vorking period. Ensure that eyewash stations and safety showers are close | |
| Eye/face protection | : | Recommended: Splash goggles ar | nd a face shield, where splash hazard exists. | |
| Skin protection | | | | |
| Hand protection | : | : 4 - 8 hours (breakthrough time): Nitrile gloves. | | |
| Body protection | : | Recommended: Long sleeved coveralls. | | |
| Other skin protection | : | Recommended: Impervious boots. | | |
| Respiratory protection | : | If ventilation is inadequate, use a N filter. | NOSH-certified respirator with an organic vapor cartridge and P95 particulate | |

Section 9. Physical and chemical properties

| Appearance | Relative | e density : 0.88 |
|--|--|---|
| Physical state | Liquid. [Aerosol.] | ration rate : Approx. 0 (Butyl acetate = 1) |
| Color | Transparent white. Solubili | lity : Insoluble in the following materials: cold water and hot water. |
| Odor | Mild. Solubili | lity in water : Insoluble |
| Odor threshold | | n coefficient: n- : Not available. |
| рН | Not available. | I/water |
| Melting point | Not available. Auto-igu tempera | • |
| Boiling point | Not available. Decomptemperature temperature temperate | ature : Not available. |
| Flash point | Closed cup: 146°C (294.8°F) [Pensky- Martens.] | : Not available. |
| Flammability | Not available. Viscosit | ity : Kinematic (40°C (104°F)): 0.14 cm ² /s (14 cSt |
| Lower and upper explosive (flammable) | Not available. Vapor p | pressure : <827.3 kPa (<6205 mm Hg) [room temperature] |
| limits | Vapor d | density : <1 [Air = 1] |

| Reactivity Chemical stability Possibility of hazardous reactions | : | No specific test data related to reactivity available for this product or its ingredients. The product is stable. Under normal conditions of storage and use, hazardous reactions will not occur. |
|---|---|--|
| Conditions to avoid Incompatible materials Hazardous decomposition products | | No specific data. Reactive or incompatible with the following materials: oxidizing materials. Under normal conditions of storage and use, hazardous decomposition products should not be produced. |

Section 10. Stability and reactivity

Section 11. Toxicological information

Information on toxicological effects

Acute toxicity

| Product/ingredient name | Result | Species | Dose | Exposure |
|-------------------------------------|-------------------------------|---------|-------------|----------|

| There is no data available. | | | | |
| Aspiration hazard | | | | |

| Name | Result |
|-------------------------------|--------------------------------|
| White mineral oil (petroleum) | ASPIRATION HAZARD - Category 1 |

Information on the likely routes of : Dermal contact. Eye contact. Inhalation. Ingestion. exposure

Section 12. Ecological information

Toxicity

There is no data available.

Persistence and degradability

There is no data available.

Bioaccumulative potential

BIO-PENETRATING LUBRICANT (BPL)

| Product/ingredient name | LogPow | BCF | Potential | | |
|-------------------------------|--------|-----|-----------|--|--|
| White mineral oil (petroleum) | >6 | - | high | | |
| Mobility in soil | | | | | |

Soil/water partition coefficient (Koc)

Other adverse effects

: There is no data available.

: No known significant effects or critical hazards.

Section 13. Disposal considerations

 Disposal methods
 : Disposal of this product, solutions and any by-products should comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements.

Section 14. Transport information
