

# BIG CHECK. BIG COVERAGE. BIG RELIEF. POWERED LOCALLY.®

Jared Faurot (center) of Faurot Farms Inc. in Scott City, Kansas, received a check for \$10,223.71 from Bob Blair (left), Fuel Truck Driver at the Scott Coop Assn., and Jed Miller, CHS Lubricants District Manager, for Cenex Total Protection Plan® coverage on a John Deere 9460R.

Jared Faurot has been farming as far back as he can remember and now operates Faurot Farms Inc. in Scott City, Kansas, where he grows corn, wheat, and milo. In that time, he's learned that avoiding a rocky operation requires smooth-running equipment. That's why he was concerned when his 2014 John Deere 9460R started giving him problems last fall.

He immediately ran an oil analysis using a LubeScan® Used Oil Analysis kit that is part of the Cenex Total Protection Plan®. The results revealed that the tractor's oil had contaminants, suggesting there was something wrong internally. He took it to the mechanic, who tore the engine apart and found the tractor needed new rocker arms, camshafts, seals, gaskets, and a host of other things. In short, it was going to be expensive.

But Faurot didn't stress because he had enrolled his tractor in the Cenex Total Protection Plan® five years earlier.

The Cenex Total Protection Plan® extends manufacturers' warranties and provides coverage for up to 10 years or 10,000 hours on new equipment, and up to 8 years or 8,000 hours on used equipment, with no deductible. "I like that the Cenex Total Protection Plan® extends the coverage further [than the original equipment manufacturers' warranty]," Faurot said. That meant when he got the hefty repair bill, the Cenex Total Protection Plan® had his back and gave him a \$10,223.71 check for the eligible repairs, per the warranty agreement.

Better yet, the hassle-free claims process and help from Scott Coop Assn., his local coop, meant Faurot could focus on his farm instead of a bunch of paperwork. "It's nice that the Cenex Total Protection Plan® goes hand and foot with somebody local so that we know who we're dealing with," Faurot said. "They've been really responsive with any issues we've had and have taken care of it."

***"THEY'VE BEEN REALLY RESPONSIVE WITH ANY ISSUES WE'VE HAD AND HAVE TAKEN CARE OF IT."***
